Facial Recognition Visitor Management

VizTrack Visitor Management

Visitor Management System, which is specially designed to keep track of visitor movement in any premises. With this system you will be able to expedite the visitor registration process, determine who is still inside your facility and notify the system users once an unwanted visitor to signs in/out.

The system utilizes the latest technology to enhance the security in the facility. Staff and visitor will feel more secured and protected. It will create a great first impression to visitor and also enhance the corporate image. The visitor register facility offers comfortable way of entering visitors and host details, purpose of visit etc. Details of appointments and details of previous visits are retrieved automatically.

VIZ TRACK
